

Visualisation of big biomedical data

Hadley Wickham & Di Cook

@hadleywickham & @visnut

July 2015

HELLO

my name is

Hadley

HELLO

my name is

Di

Import

Tidy

Consistent way
of storing data

Transform

Create new variables & new summaries

Visualise

Surprises, but doesn't scale

Model

Scales, but doesn't (fundamentally) surprise

Programming
Software development
Communication

Day 1

- Introduction to ggplot2
- Layering visualisations for big data

Day 2

- Multivariate plots for bioinformatics, using ggplot2 and GGally
- Data mining and genomic plots
- Data manipulation with dplyr
- Tidy data and tidying your messy data with tidyr

Day 3

- Interactive graphics using ggvis
- Building interactive web apps with shiny
- Your turn: make your own shiny app

The bad news:
It's going to be
frustrating

3:17 AM

The good news:
Frustration is
typical and
temporary

Your turn

Introduce yourself to your neighbours.
They are the best resource for help!

Why do you want to learn R?
